We at MOTA Industrial Services are dedicated to being environmental stewards in the Midlands, South Carolina and beyond. Our mission is to improve environmental quality, and create a sustainable future for our local and global community.

MOTA will:

- Guide your business to make environmentally sensitive choices.
- Assist your business with compliance of environmental regulations.
- Reduce pollution by showing your business how to recover and treat waste and wash water, through the use of oil water separation, biological or filtration technologies.
- Offer Turn-key Solutions. If your business is out of compliance with a government agency, MOTA can help you regain compliance with its Turnkey Solutions package, which includes designing, building, installing and training.
- Supply your business with biodegradable cleaning chemicals.
- Help your business find quality alternatives to solvent based materials.
- Consistently research cutting edge technologies to assure your business remains compliant and saves money.

Sincerely,

A handwritten signature in black ink that reads "Eric Wing".

Eric Wing - Managing Partner
